KEY FACTS

The Burj Khalifa is the tallest building in the world at 828 meters.

These buildings represent some of the most advanced engineering and design achievements.

Many of these skyscrapers are mixed-use, including offices, hotels, residences and observation decks.

DID YOU KNOW?

The Burj Khalifa is more than twice the height of the Empire State Building (443 m) and almost three times the height of the Eiffel Tower (324 m).

Skyscrapers continue to push the boundaries of height, sustainability and innovation.

Engineering the future.
Reaching new heights.
